2. Very strong subject knowledge in Pre and Para-Clinical subjects are essential to attain the required level of competency in Clinical subjects and to acquire the required diagnostic skills for proper patient management and to be a successful medical professional. In order to teach the subjects, faculty with qualifications in Pre and Para-Clinical subjects are required.

3. Hence it is the paramount duty of medical institutions to make available the required teachers by encouraging students to pursue Non-Clinical courses. With this noble vision, the management of Sri Venkateshwaraa Medical College Hospital and Research Centre had taken the decision of reducing the fees fixed by the Fee Committee for Non-Clinical PG courses. On successful completion of the course, student could be considered for the position of Senior Resident as per the college norms.

4. We request you to display our proposed fees structure in the CENTAC website immediately for information of the candidates.

Thanking you,

Yours faithfully,

*P. w6*
