

Green Life Medical College

Private College of Bangladesh

Green Life Medical College

In 2005, about 50 distinguished physicians of the country started a Hospital to give specialized care in the private sector. They named it **Green Life Hospital** and it turned out to be a great success. So in 2009, they decided to make a medical college which will be a non-government, non-profit, self-financing project and will serve the humanity.

This College came into existence in 2009. The college commences its activities with the enrollment of 51 students in the **1st batch in 2010**. Since inception, the college has undergone tremendous development and became a splendid centre for learning and development. At present we are enrolling 110 students each year. Among them, numbers of seats are reserved for overseas students. Right at this moment 76 foreign students are studying, among them 50 students are male and 26 are female.

Green Life Medical College (GMC) is approved by the Ministry of Health and Family Welfare (MOHFW), Government of Bangladesh and Bangladesh Medical and Dental Council (BMDC) and affiliated to the University of Dhaka. It has the recognition of General medical Council, United Kingdom and it is enlisted in World Directory of Medical School and Educational Commission for Foreign Medical Graduates.

On 27 June 2005, Dr. Md. Mainul Ahasan, Managing Director coordinated and organized about 50 distinguished physicians and Surgeons of the Country and started a Hospital to provide specialized health care services to all types of patients especially poor patients in the private sector named Green Life Hospital Ltd. It is an International Standard well equipped unique Multi-Disciplinary hospital in Bangladesh that has been working with the maximum number of eminent own physicians and surgeons in the country. We are confidently providing comprehensive health care service to the patients with the latest Medical, Surgical, Diagnostic, and Blood Transfusion facilities by expert medical professionals, skilled nurses, and technologists using state-of-the-art technology.
