Programmes Offered

Under-Graduate Programmes

TNNLU currently offers two 'five year integrated undergraduate law programmes' approved by the BCI i.e., B.A. LL.B. (Hons.) and B.Com. LL.B.(Hons.). This regular, full-time and rigorous residential programme is based on semester pattern. It is spread through ten semesters which encompasses wide range of activities including research projects, moot court exercises, inter-disciplinary lectures and compulsory internships besides the regular classes and exams.

Five years integrated B.A.LL.B. (Hons.)

The five year B.A. LL.B.(Honours) programme, commenced in academic year 2013 - 2014, is designed to train the students in law and other social sciences using an interdisciplinary approach, to enable them to become legal professionals with sound understanding of policy implications. While the prime focus in the first two years is on the other social sciences, the students are required to complete a minimum number of law courses. This further enriches the interdisciplinary approach as knowledge of other disciplines informs the understanding, inter alia, of the various law courses.

In addition to the BCI compulsory courses, clinical courses, optional/elective and seminar courses in law, the students may choose various elective courses offered by faculty of Commerce.

Five years integrated B.Com. LL.B. (Hons.)

The five-year B.Com. LL.B.(Honours) programme was commenced in academic year 2014 - 2015. This programme is in pursuit of expanding the interdisciplinary study of law and fulfils the aspirations of students in widening the scope of the enquiry to commerce, accountancy and business disciplines through these courses. At the same time, apart from the BCI mandated courses, clinical courses, optional/elective and seminar courses in law, the students are required to complete a minimum number of courses offered to the B.A. LL.B. Honours programme in the same spirit of interdisciplinary study of law like Legal History, Political Science, Economics and Sociology. Based on interest, elective courses offered by faculty from other disciplines may also be chosen

The courses of the above programmes are designed in such a way that those who didn't study courses relating to Social Sciences, Commerce or Accountancy in Classes XI and XII will get adequate foundation through the introductory classes and will be able to develop the background knowledge needed to pursue these courses through their undergraduate programmes.
